

Joshua Collins

In retrospect, what could you have done better to reduce the time you spent solving this homework?

I could've reduced the time I spent solving these questions by attending office hours to ask questions and by reading the slides more carefully.

What could we, the teaching staff, have done better to improve your learning experience in this homework?

I wished we had more examples of backwards reasoning and showing how conditions are stronger and weaker compared to each other.

What do you know now that you did not know before beginning the homework?

I have a better understanding of Hoare's triples and conditions strength.
